# Tsai Electro Product Partner Starter: Creator Workflow

A short working sheet for creators and instructors. It covers what to check, which links to use and how to disclose. The Product Partner Program terms are the full, authoritative rules. This sheet does not change them, create a new offer or approve anyone.

https://www.tsaielectro.com/product-partner-program-terms/

## 1. Two different arrangements: keep them apart

| | Website product partner (this sheet) | Amazon book recommendation |
|---|---|---|
| What it covers | Only the one-off website products listed in the terms (see section 4). | Paperback and Kindle workbooks sold on Amazon. These are not part of the Product Partner Program and earn no commission under it. |
| How you join | Apply, then receive individual written acceptance and an assigned code. | Only if you independently participate in Amazon Associates. Get your own eligible Special Link from your own account and follow its current rules. |
| What Tsai Electro provides | An assigned code and an approved URL in your welcome notice, after acceptance. | Nothing. We do not enroll anyone in Amazon Associates or promise a commission for book links. See Amazon's programme policies. |

Also outside the product program: website membership and subscriptions paid through Creem.

## 2. Workflow, in order

- Read the Product Partner Program terms. If you do not accept them, stop here.

https://www.tsaielectro.com/product-partner-program-terms/

- Check fit with your audience using the public sample below. It needs no email address or purchase.

- Apply on the partner application page. Applying is not approval and does not issue a usable code.

https://www.tsaielectro.com/product-partner-program-application/

- Wait for individual written acceptance. Your welcome notice gives your assigned code and the approved URL. Expressly accept the terms before you promote anything.

- Pick one disclosure template (section 5). Replace every highlighted placeholder by hand with the code and URL from your welcome notice.

- Put the disclosure beside the recommendation and before the link or code. Publish only on the channels named in your acceptance.

## 3. Public sample to look at first

Open the complete worked example and incorrect-answer explanations

https://www.tsaielectro.com/electrician-exam-book-worked-samples/#sample-jm

Also public: the ten-question calculation check and the free mistake log, study plan and reference checklist.

https://www.tsaielectro.com/texas-journeyman-calculation-check/

https://www.tsaielectro.com/electrician-exam-free-study-tools/

These are ordinary public pages, not partner links. Sharing them earns nothing. Exercises use supplied data only and are not instructions for work on equipment.

## 4. Products you may promote with an assigned code

The terms list seven products. Six may be promoted now:

- https://www.tsaielectro.com/store/us-electrician-practice-exam-pack-timed-printable-pdf/

https://www.tsaielectro.com/store/us-electrician-practice-exam-pack-timed-printable-pdf/

- https://www.tsaielectro.com/store/texas-master-electrician-exam-prep/

https://www.tsaielectro.com/store/texas-master-electrician-exam-prep/

- https://www.tsaielectro.com/store/texas-electrical-apprenticeship-entry-kit/

https://www.tsaielectro.com/store/texas-electrical-apprenticeship-entry-kit/

- https://www.tsaielectro.com/store/electrical-apprenticeship-aptitude-interview-kit/

https://www.tsaielectro.com/store/electrical-apprenticeship-aptitude-interview-kit/

- https://www.tsaielectro.com/store/gan-aptitude-test-practice-pack/

https://www.tsaielectro.com/store/gan-aptitude-test-practice-pack/

- https://www.tsaielectro.com/store/texas-first-year-electrical-apprentice-kit/

https://www.tsaielectro.com/store/texas-first-year-electrical-apprentice-kit/

**On hold: do not start promoting.** The Indoor Wiring Level C practice pack (indoor-wiring-level-c-practice) is temporarily unavailable for new promotions.

The terms set a 30% commission on eligible net product revenue, attributed by your assigned coupon code. Read the terms for the calculation, the 45-day validation period, refunds and monthly USD PayPal payments. Approval is not automatic, sales are not credited from a browser cookie alone, and no income is guaranteed. A coupon code does not itself promise a customer discount.

## 5. Three copyable disclosure templates

Copy the text in the grey box. Replace {{ASSIGNED_CODE}} with the code from your welcome notice and {{APPROVED_PRODUCT_URL}} with the approved URL from your welcome notice (one of the six products above). Use the commission sentence only when it is factually true. If you received anything else, such as free access, add that to the disclosure. Platform partnership labels are an addition to this text, not a replacement.

**A. Short social post**

Disclosure: I earn a commission if you buy an eligible product using my code.
Code: {{ASSIGNED_CODE}}
{{APPROVED_PRODUCT_URL}}

**B. Video (say it out loud and show it on screen in the endorsement itself)**

Spoken, before the link or code: "I'm a Tsai Electro product partner. I earn a commission if you buy an eligible product using my code."
On-screen text: Paid partner: I earn a commission on eligible purchases with code {{ASSIGNED_CODE}}
Description, first lines: Disclosure: I earn a commission if you buy an eligible product using my code {{ASSIGNED_CODE}}. {{APPROVED_PRODUCT_URL}}

**C. Article or newsletter (place above the first link or code)**

Disclosure: I am a Tsai Electro product partner. I earn a commission if you buy an eligible product using my code.
Product: {{APPROVED_PRODUCT_URL}}
Code: {{ASSIGNED_CODE}}

## 6. Manual copy steps

- Select all the text inside one grey box and copy it.

- Paste it into your post, script, description or article editor.

- Replace every {{...}} placeholder. Do not publish with any braces left in the text.

- Check that the disclosure line comes before the link or code and is visible without an extra click.

## 7. What not to say or do

- Describe only what you have reviewed. Do not claim licensing approval, job placement, exam success, income outcomes, or government, military, union or school endorsement.

- Never present electrical content as permission to perform electrical work.

- No spam, purchased lists, unsolicited bulk messages, fake reviews, self-referrals, coupon-site distribution, brand-keyword paid bidding or paid traffic without a separate written agreement. The terms list every prohibited practice.

- Do not make up a code or link, or add your own tracking parameters. Share only the approved URL and code in your welcome notice.

Questions about the program: see the terms. This sheet is a summary for convenience; where it differs from the terms, the terms apply.
